

Adding the Core Competencies

Note: If this is a new course or you did not import your previous course shell then skip to step #4.

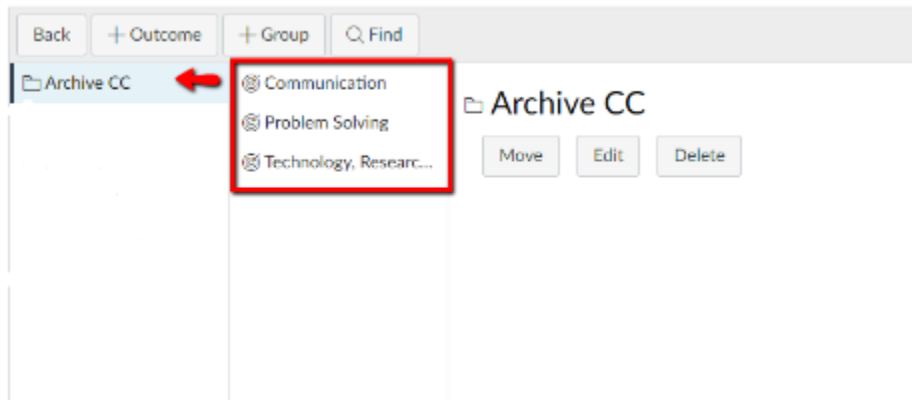

1. First check to see if you have the old core competencies (3-point scale) in your course. Click Outcomes to view competencies are in your course.

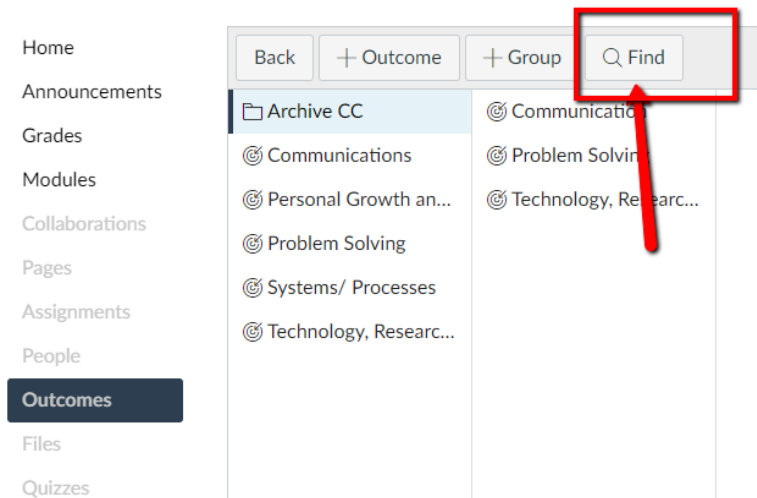

2. If old core competencies exist (with the 3-point scale) you will want to Archive these. Click on +Group in your outcomes area to create an Archive CC folder:

3. Hold your mouse button and drag the old core competencies into the Archive CC folder you just created.

4. Now it is time to locate and add the new 5-point core competencies to your course. Still within the Outcomes tab- click on Find:

- Click on Core Competencies. Click on the Competency you want to add and click Import. You will repeat this step for each competency for that semester.

7. Name the Rubric. Remove the automated 5 point “description of criterion” field and mark the checkbox “Hide score total for assessment results”

The screenshot shows the rubric creation interface for a rubric titled "Core Competency Communicatic". The interface includes a table with columns for "Criteria", "Ratings", and "Pts". The "Description of criterion" row is highlighted, and a red arrow points to an "X" icon in the "Pts" column, with a red box around it containing the text "Click the X to remove". Below the table, there are several checkboxes: "I'll write free-form comments when assessing students", "Use this rubric for assignment grading", and "Hide score total for assessment results", which is checked. A red arrow points to the checked checkbox. At the bottom, there are "Cancel" and "Create Rubric" buttons, and navigation buttons for "Previous" and "Next".
